

Hospital Reaction Shot

The Mountain Goats

Let the tube lights buzz overhead
Tell the papers that you're dead
You'd want them to be the first to know
Gone down where the goblins go

Head down, headed for the curtain call
I'm the last to try to break your fall
Last I died before the undertow
Gone down where the goblins go

If I had as much money as I could spend
I never would cry
I never would choose to mend

There's no kingdom, there's no road
Just old sets where faulty flash pots explode
Head out to the sidewalk
On with the show
Gone down where the goblins go
Gone down where the goblins go

If I had as much money as I could spend
I never would cry
I never would choose to mend

There's no kingdom, there's no road
Just old sets where faulty flash pots explode
Head out to the sidewalk
On with the show
Gone down where the goblins go
Gone down where the goblins go
