

## Walk Upon The Water

The Move

My friends and I took a walk today  
To a place we've been before  
We flipped around like a wild machine  
Till we stopped down by the store  
Someone said  
\*Let's go for a walk upon the water  
Let's go for a stroll across the sea  
First one, follow me  
Amidst my thoughts didn't feel inclined  
To drift into the bay  
By now my friends, could see their minds  
As I watched them drift away, all singing  
(\*repeat)  
\*\*.....  
Final boarding time  
Now their souls are washed up  
Faith destroyed their minds  
Better get the Life inspector  
Bring along his mind director  
You know I'm innocent  
I just didn't expect their trip to last  
With the gale force that crossed their path  
I could see them sinking fast, still singing  
(\*repeat)  
(\*\*repeat)  
This tale of common sense will end on  
Please don't drink and drive  
Especially when you're driving friends  
Along the waterside, still singing  
(\*repeat)  
(\*repeat)  
Follow me, follow me, follow me  
(repeat and fade
