

# When Alice Comes Back To The Farm

## The Move

Jenny had a bawl at me the other night  
She threw it up and drove away  
So I made a call completely out of sight  
Need to put it right today

When Alice comes back to the farm  
I won't be in the cold tonight  
When Alice comes back to the farm  
You know it's gonna be alright

Gimme an appointment  
Put me in the light  
That's a taste of what she needs  
Such a disappointment  
Daddy's in the right  
Time for tearing out the weeds

When Alice comes back to the farm  
You won't be in the cold tonight  
When Alice comes back to the farm  
You know it's gonna be alright

Relax now baby  
That woman won't pass my door  
I believe, I believe  
That woman won't pass my door  
She won't get raising no alarm  
Don't get around much anymore
