

Cool Me Down

The Movement

The sun is rising on an East coast morning and I'm driving
To see the waves hit the sand on the shore, so I can dive in
Road so hot, I can see the heat rising, man I'm sweating
Ya know I gotta get in
Don't ya know I gotta get in the loving ocean

Atlantic water come and cool me down
Pull me under, spin me around now
Atlantic water come and cool me down
It's alright now, all is right now
Ya come and cool me down in the morning
Ya come and cool me down every night

The sun is setting on a west coast evening and I'm driving
I see the path up ahead. I've been working, I've been striving
Life so rough, I've been stressing everyday. You know I'm sweat
ing
Ya know I gotta get in
Don't ya know I gotta get in the loving ocean

Pacific water come and cool me down
Pull me under, spin me around now
Pacific water come and cool me down
It's alright now, all is right now
Ya come and cool me down in the morning
Ya come and cool me down every night

Atlantic water come and cool me down
Pull me under, spin me around now
Pacific water come and cool me down
It's alright now, all is right now
Ya come and cool me down in the morning
Ya come and cool me down every night
