

## Dancehall

### The Movement

I've seen the sun slip behind the sea  
The stars stretching out to eternity  
But baby, they just can't compare  
To what you mean- What you mean to me  
So I'll wait- I'll wait for you  
At the dancehall

Yes I'll wait- You know I'll wait for you  
At the dancehall

Staring up at the palm leaves  
Salt breeze blowin- never felt so free  
Me and you- yeah we were the only two  
Out on the beach, and out of reach

Remember when we heard our song  
I swear I could have held you all night long  
I thought loving you could never be wrong  
But now you're gone  
Now you're gone

And I'll wait- I'll wait for you  
At the dancehall  
Yes I'll wait- You know I'll wait for you  
At the dancehall

I say now how can I stop when you keep on keepin me going  
You just cut off the current when I need it to be flowing  
With every part of me aching- my heart is taking me over  
And my head- It keeps spinning like I could never be sober  
Cause there's another side of you that I can never ignore  
You say you're leaving me baby- I say I'm missing you more  
And I would never hurt you, burn you, cut you down to the core  
But you got one foot on my heart and got one foot out of the do  
or  
Still I'll wait- I'll wait for you  
At the dancehall  
Still I'll wait- you know I'll wait for you  
At the dancehall
