

Habit 2016

The Movement

You know I got a habit
It ain't gonna lead nowhere
Except to the many legions of the people with a problem
But nobody cares
Cause all I do is
Sit and dream about drinking and women and music
It's just gonna
Give me another reason to use and abuse it
But still I gotta

I live and I learn
All I wanna do is burn down
And so I light it up

I live and I learn
All I wanna do is burn
And so I light it up

I live and I learn
All I wanna do is burn down
And so I light it up

I live and I learn
All I wanna do is burn

(Collie Buddz verse)

I live and I learn
All I wanna do is burn down
And so I light it up

I live and I learn
All I wanna do is burn
And so I light it up

I live and I learn
All I wanna do is burn down
And so I light it up

I live and I learn
All I wanna do is burn

I smoked a zip in an afternoon
It's 5 o'clock I'm tryna smoke all evening too
So weh you wan do, do you have a next link
Cause I got a habit and it need addressing
You know I wanna hold it
Break it up and roll it
Twist it up and fold it any kinda way
I'm an addict like the ceiling
In need of that healing
If I can't have it Ima feel some type of way
Cause when we start smoke we nuh stop smoke
I'm from the west coast riding with the best smoke
You know seh it's The Movement Collie and the Hustle
In the streets dem see me moving ganja man a hustle
Still you know I got a way of vanishing like the smoke in the sky

I gotta have it to manage the pain like smoke in my eye
Sometimes I light it up just to smoke and get high
Ya I gotta habit man I smoke to get by

You know I got a habit and I know I don't have it to give away
If I see it I'm gonna grab it
My mind is a mess and I'm always stressing
And maybe I'll never need this drink atop a tablet
Because I think my eyes are playing tricks on me
I think it's easy to see but I can't believe me
Cause every time she brings a bottle of wine I'm fine
Pass the chalice I know that you'll never leave me

I live and I learn
All I wanna do is burn down
And so I light it up

I live and I learn
All I wanna do is burn
And so I light it up

I live and I learn
All I wanna do is burn down
And so I light it up

I live and I learn
All I wanna do is burn
