

## Habit

### The Movement

You know I got a habit it ain't gonna lead nowhere  
Except to the many legions of the people with a problem  
But nobody cares  
'Cause all I do is  
Sit and dream about drinkin and women and music  
It's just gonna  
Give me another reason to use and abuse it  
But still I gotta

I live and I learn all I wanna do is burn down  
And so I light it up  
I live and I learn all I wanna do is burn

You know I got alot of wrongs to right  
I been fightin, lying, cheatin on you every night  
I got a habit yo I'm bad at it but it's alright  
'Cause in the end I wanna be the one holding you tight  
But I got to hold on make way  
I said the drinking and the women and the music got me crazy  
But I'm addicted  
Uplifted, now I just can't stop  
Yo she's all that I need  
Everything that I got ya know
