

# Mountain

## The Movement

I looked but I just couldn't see  
The sun shining down on me (It's for free)  
I see but I don't understand  
My shadow when I raise my hand (Ahh yeah)  
Yeah we're all stumbling our way down this open road  
Just trying to make it to the next stop (Yeah yeah yeah)  
And we're tired but we keep our eyes open so  
We can end up in the best spot (Yeah yeah yeah)

We only need to climb this mountain and we will be free  
We only need to climb this mountain and we will be free (Wanna be free)

Still we got a long long long long long way till we make it home  
(Make it home, no no)  
I know we're all a little lonely but we're not alone (Not alone)

I heard the sound of dancing feet  
When I was lying in the street (Yeah)  
I listened to them take command  
I prayed that they would take my hand (Take my hand)  
Yeah we're all running away from something we fear  
Unless we're trying to meet it head on (Yeah yeah yeah)  
And that voice saying "give up" is just something we hear  
When we know we gotta get on (Yeah yeah yeah)

We only need to climb this mountain and we will be free  
(Yes we will be free)  
We only need to climb this mountain and we will be free (Ah so free)

Still we got a long long long long long way till we make it home  
(Make it home, no no)  
I know we're all a little lonely but we're not alone (Not alone)

Travel on  
It's a long winding road  
Hey  
Travel on  
No time to get bored  
Hey  
Travel on  
Happiness will come just keep on moving  
Travel on  
And we will see  
What will be  
Must be  
Just wait and see  
You and me  
What will be  
Must be  
Just wait and see  
Love ones dancing with glee

We only need to climb this mountain and we will be free  
We only need to climb this mountain and we will be free

Still we got a long long long long long way till we make it home  
(Make it home, no no)

I know we're all a little lonely but we're not alone (Not alone)

Still we got a long long long long long way till we make it home  
(Make it home, no no)

I know we're all a little lonely but we're not alone (Not alone)
