

## Rem

## The Movement

Every time I close my eyes  
I know you will be there  
Every time you realize  
I was the one to care

I know what you're feelin  
You feel it in your soul  
And I can't believe it  
So forget it and lose control

When you sleepin  
When you sleepin  
Hoping you dream of me, of me, of me  
Woah when you're sleepin, sleepin  
Dream of me, of me, of me

Every time I close my eyes  
I know you will be there  
Every time you realize  
I was the one to care

I know what you're feelin  
You feel it in your soul  
And I can't believe it  
So forget it and lose control

When you sleepin  
When you sleepin  
Hope you'll dream of me, of me  
Woah when you're sleepin, sleepin  
Dream of me

The people you meet  
The people you know  
Places you've been  
Places you'll go

And all of the regrets  
You're too scared to show  
Soon be the reapings that you'll surely sow

All of your love  
All of you hate  
All of your trust  
All of your fate

Let me tell you one thing  
You make no mistake

When you sleepin  
When you sleepin  
Hope you'll dream of me, of me  
Woah when you're sleepin, sleepin  
Dream of me, of me

The people you meet  
The people you know

Places you've been  
Places you'll go

And all of the regrets  
You're too scared to show  
Soon be the reapings that you'll surely sow

All of your love  
All of you hate  
All of your trust  
All of your fate

Let me tell you one thing  
You make no mistake
