

# River Guide You

The Movement

If you're feelin' lost in the sea  
Swimmin' upstream  
Let the river guide you  
When you wash up on the beach  
Dreams out of reach  
Let the river guide you  
If you're feelin' lost in the sea  
Swimmin' upstream  
Let the river guide you  
Just let the river guide you  
Let the river guide you

Standin' in the road all alone  
Tryin' to find peace of mind  
Just to let it go  
Maybe it's a sign  
But ya know  
Sometimes it's hard to see  
Still ya gotta try to find the good in the bad  
World's gone mad  
But it reminds me of the bond that we have  
There's nothing in this world you can do  
That's not a part of me

That's how I know  
I'm on another level with the devil  
Far gone  
Sometimes I think I'll never get it  
Come down  
Tomorrow maybe I'll be ready  
Ready for you to come and take me there  
Too long, been sayin' that the day is comin'  
You wrong for catching me when I'm runnin'  
New song will bring me back home  
When I float too far away  
Now I know

If you're feelin' lost in the sea  
Swimmin' upstream  
Let the river guide you  
When you wash up on the beach  
Dreams out of reach  
Let the river guide you  
If you're feelin' lost in the sea  
Swimmin' upstream  
Let the river guide you  
Just let the river guide you  
Let the river guide you

Runnin' and gunnin' gonna come in and ruin what you're doin'  
You and I be losin' if we're sitting  
It's just the beginning  
Everything is happening at once  
It's just appearing  
It's searing into your mind  
Like a diamond inside your temple  
Can't help it, it's neverending

It's been there since the inception  
Every thought you've been thinking  
Was given by your ancestors  
It's evident  
It's dependent upon the precedent  
Present is governed by the past  
If it's your last breath  
Then it's how Gaia meant it

Now I know  
Now I know  
Now I know  
Just let the river guide you

If you're feelin' lost in the sea  
Swimmin' upstream  
Let the river guide you  
When you wash up on the beach  
Dreams out of reach  
Let the river guide you  
If you're feelin' lost in the sea  
Swimmin' upstream  
Let the river guide you  
Just let the river guide you  
Let the river guide you
