

Selene

The Movement

I remember late one night
Standing in the rain outside
Looking up, I saw the lightning strike
Wonder how you found me?
If you could make life so good
Tell me if you think I should
Move into the neighborhood
Let the stars surround me

You were just another one
But somehow you made it seem
Like all the rest were nothing
Once you shined that light inside me
I am just a mortal man
Living in a world of dreams
Like all the rest upon this land
But I got you to guide me

Ooh, that Luna
Have you seen her
Take me to the moon
I want you back Selene
Ooh, that Luna
Have you seen her
Take me to the moon
I want you back Selene

They called you by many names
But somehow it's all the same
You call me right in with the tide
And you know I'll come running
Your chariot is made from stone
So I will never lay alone
You ride across the night sky
And bless me with your loving

You were just another one
But somehow you made it seem
Like all the rest were nothing
Once you shined that light inside me
I am just a mortal man
Living in a world of dreams
Like all the rest upon this land
But I got you to guide me

Ooh, that Luna
Have you seen her
Take me to the moon
I want you back Selene
Ooh, that Luna
Have you seen her
Take me to the moon
I want you back Selene
