

Smoke

The Movement

She likes to smoke, she loves to burn
Ya know she has to get it everywhere she turns
She likes the weed, she loves the herb
And ya know I need her more with every word

She likes to smoke, she loves to burn
Ya know she has to get it everywhere she turns
She likes the weed, she loves the herb
And ya know I need her more with every word

My first words were you're gorgeous
You caught my eye- I think you did it on purpose
I'd never give you lip service
I'd speak the truth even if you never heard this

Cause when I look at you I see the sun shining so bright
I wanna be with you the morning through and every night

She likes to smoke, she loves to burn
Ya know she has to get it everywhere she turns
She likes the weed, she loves the herb
And ya know I need her more with every word

She likes to smoke, she loves to burn
Ya know she has to get it everywhere she turns
She likes the weed, she loves the herb
And ya know I need her more with every word

She sends me pictures in the bathtub smokin
I wanna jump right in- the thought is so provoking
She's on the beach surfin and tokin
I think she loves the trees more than she loves the ocean

She'd put aside all the other little boys for me
But when it comes to the ganja I just can't compete

She likes to smoke, she loves to burn
Ya know she has to get it everywhere she turns
She likes the weed, she loves the herb
And ya know I need her more with every word

She likes to smoke, she loves to burn
Ya know she has to get it everywhere she turns
She likes the weed, she loves the herb
And ya know I need her more with every word
