

Together (we are one)

The Mowgli's

Hey!

Well, I let love lead me here, way out to the west
And my friends, they are a-coming, we'll ride into the sunset
We know that when we are together we are home

Hey! Hey! Hey!

We let love shine the way, from dawn until we rest
We feel this day a-coming, we'll ride into the sunset
We know the power of love will overcome and the world will know
Together we are whole

We know together we are home
And that's just how it goes
Together we are whole
Together we are
Home! Home! Home!

Together we are whole
Together we are whole
Together we are whole
Together we are whole

We walk the beach with our bare feet, we settle in the streets
Right down to the boardwalk, shine the light on everything
We know the power of our love will cure us all and the world will know
Together we are one

We know together we are home
And that's just how it goes
Together we are whole
We know together we are home
And that's just how it goes
Together we are whole
Together we are
Home! Home! Home!
