

Predictable

The Mr. T Experience

I know what you're gonna say
You say it every day
And I won't try to understand this time
'Cause you're so predictable
Oh baby you're so predictable
I've heard that speech before
And I've been keeping score
Of what I heard and I can mouth the words

All night we fight
You might as well be still

I know what you're gonna say
You'll say it anyway
Don't scream Don't shout
Cause I'll just tune you out
