```
I can't fall asleep I wanna try
The only way I'll sleep is if I die
I need a little luxury
Put your arms around me
And I'll feel better naturally
Thinking about everything I do
Wide awake and thinking about you
I need a little luxury
Put your arms around me
And I'll feel better naturally
I'm afraid that I care and I want you there
[solo]
I need a little luxury
Put your arms around me
And I'll feel better naturally
And I'll feel better naturally
And I'll feel better naturally
```
