

## And I Go Pow

The Muffs

Everyday in everyway  
everybody knows I'm out there  
On the day you weren't around all I want is to go pow

It's ok I know what I am  
Please try understanding all around  
I don't care how much I've read  
Please try understanding I'm out of my head  
I'm out of my head

Maybe once or maybe twice  
I have ever been so nice  
And I see you wonder how  
I could have a 2 shot now

And I go pow and fall on my face  
I don't understand what's going 'round  
I don't care how much I've bled  
Please try understanding I'm out of my head  
I'm out of my head

[solo]

Anytime and anywhere  
everybody knows I'm out there  
I don't mind so long my pride  
Come on look into my eyes

If you want now to go and find me  
Please try understanding all around  
I don't care how much I'm dead  
Please try understanding I'm out of my head  
I'm out of my head
