

Down Down Down

The Muffs

Down, down, down, around
And probably a little bit confused, and
Down, down, down, around
And maybe you could see behind the scene
Down, down, down, around
And feeling like a weight around your ankles
What the hell you think
It's gonna last a really, really long time

Just about the time, you gotta
Shape the noose around your neck
Maybe you can take a second
Think about just anything else

Sitting by yourself and frowning
Down on everybody too
Just a little bit of coffee
And you know the day is gonna be so good

Down, down, down, around
Down, down, down, around
Down, down, down, around
Down! Down! Down!
Down! Down! Down!
Down! Down! Down!
Down! Down! Down!
Whoa! Whoa!
