

Forget the Day

The Muffs

Forget the day
I'm really not gonna turn up today
Believe when I tell you

Will you come with me
Forget the day and break the key
Nothing more to do
And float a round with me now

Like me in the wind
Am free till the end

And now we're saying

Forget the day
I really don't wanna work anyway
Today I'm not fooling

Anything I do
And only if I wanted to
Lazy all around
I get to do nothing for now

Like me in the wind
Am free till the end

Every day is a busy day
Usually it's true
But today's another day
Nothing else to do

And let me tell you

Forget the day
I really don't wanna do anything
Believe when I tell you

Will you come with me
Forget the day and break the key
Lazy all around
I get to do nothing for now

Like me in the wind
Am free till the end
Like me in the wind
Am free till the end
Like me in the wind
Am free till the end
