## The Muffs

What do you want?  
Don't believe what you hear  
What did I ever do to you?  
Your little feelings that are insane

I'm just in the way  
And now you'll blame me

For everything  
Say what you will  
I thought you were a pal  
And suddenly everything changed  
You stopped talking to me, insane

I bet you are  
Not in your right mind  
That you are likely just a mess  
You are the kind of friend that I don't need

Insanity  
And you can't be him

Can't you see?  
Friend like you were  
I thought you were a friend  
And suddenly everything changed  
The end  
It feels like you are insane
