

# Like You Don't See Me

The Muffs

(Verse)

On and on I don't care if you hear me  
I just want you, even when you're?  
I keep having something else, I know  
I know it's not our favorite thing  
But better than nothing  
What if we come ready for something?  
Like a smile and a touch, I love it how you do  
Believe me if I am in regret  
It's that I never swear I don't care

(Pre-Chorus)

Without you I'm not good? Today our love is through  
What pushed you away?

(Chorus)

Oh, you're away, I need you today  
When you're sitting right there  
But you don't see me  
It's like you don't see me

(Verse)

What I cannot do to be on your side  
I think you got some bad advice  
I want the kidder cheddar on the laughing end(?)  
You're looking, you're busy through your little head  
It makes me feel like I am fed  
Do you think maybe for a while you can care?  
I'm ready to be happy today  
I'm ready to be happy

(Pre-Chorus)

Without you I'm not good? Today our love is through  
What pushed you away?

(Chorus)

Oh, you're away, I need you today  
When you're sitting right there  
But you don't see me  
It's like you don't see me

(Instrumental break)

(Bridge)

I know it's not our favorite thing  
But better than nothing  
What if we come ready for something?  
Like a smile and a touch, I love it how you do
