

## Paint By Numbers

### The Muffs

Come on and take a little time  
You're gonna know that I belong to you  
And I know you're really not far away  
I see you everyday

When I smile at you  
And you smile too

Yeah, you know it makes me happy  
Yeah, it makes me happy  
You really make me happy  
If you only knew my name  
Isn't it a shame?

You look so great, you really just did  
I think I'm liking you  
And I know you really just started to wait  
I see you everyday

When you walk by me  
I wish you would talk to me

Yeah, you know it makes me happy  
Yeah, it makes me happy  
It really makes me happy  
If you only knew my name  
Isn't it a shame?

I'm around, you really don't know it  
But I see you everyday  
Look at you, I'm looking at you and always  
Ooh ooh ooh

You know it makes me happy  
Yeah, it makes me happy  
You really make me happy  
Yeah, yeah
