You And Your Parrot

You and your parrot Walk around like you're demigods You and your parrot When you're together I'm all alone I am all alone (yeah)

Forget about it You get together and laugh at me Forget about it Gossiping on the telephone I am all alone

Will anybody take a chance for me today? We'll throw them in a well and Laugh and watch them float away

Will anybody take a chance for me today? We'll throw them in the ocean Laugh and watch them float away

[Repeat First Verse]

Now I'm gonna be all alone Now I'm gonna be all alone I am all alone The Muffs
