

Means To Bleed

The Mysterines

Come to me bitterly
Undertand, just what I've seen
Behind these eyes, I have no means
The cold wet night inviting me
To show you what it means to bleed
To show you what it means to bleed
Ohhh
Ohhh

Desire's knife, the sharpest type
Just what I've done plays on my mind
It's in my dreams
My black bloodstreams
The voices call, they're telling me
To show you what it means to bleed
I'm gonna show you what it means to bleed

They mourn for me
They warned me too
Eternity, straight back to you
Leviathan, he holds within
The keys to set my body free
The keys to set my body free
The keys to set my body free
St. Peter waits, stood at his gates
Inviting me, to an empty fate
To show you what it means to bleed
I'm gonna show you what it means to bleed

To show you what it means to bleed
I'm gonna show you what it means to bleed
Ohhh
Ohhh
Ohhh
