

8th Wonder

The National Parks

From where I'm standing I can't take my eyes off of this
Like the Grand Canyon or the peak of Everest
Volcanic heart, waterfallin' apart
I can't explain it, a sight to see
A breathtaking mystery, ohhh

Your love is like rollin' thunder
You rattle my bones and make me shake
My love, you're the 8th wonder
It's no wonder I can't look away

There's no barrier that's gonna keep me away
A January river running right through my veins
Electric sky, that's how I feel tonight
Like an explorer, I stand in awe
Once in a lifetime phenomenon, ohhh

Your love is like rollin' thunder
You rattle my bones and make me shake
My love, you're the 8th wonder
It's no wonder I can't look away
It's no wonder I can't look away

Your love is like rollin' thunder
You rattle my bones and make me shake
My love, you're the 8th wonder
It's no wonder I can't look away
It's no wonder I can't look away
