

# Waiting For Lightning

The National Parks

I remember days I was younger growing up with the thunder  
Living inside of me  
I ran fast like a river, fell hard like timber  
Hoping that I would see everything

But I can be the one to hold on  
I just need to know for how long

Ooh I've been waiting for lightning to strike  
Ooh I've been waiting for lightning to strike

I want to know where to go to find  
The place where the eyes and the mind meet  
Where the charge in the sky meets this ground of mine  
Yeah a flash of your light is all I need

Yeah I can be the one to hold on  
I just need to know for how long

Ooh I've been waiting for lightning to strike  
Ooh I've been waiting for lightning to strike

I'm in the storm my arms are stretched  
I'm standing here please don't forget  
I'm waiting for lightning  
My heart's a key tied to a string  
Up on a kite what will it bring  
I'm waiting for lightning to strike

Ooh I've been waiting for lightning to strike  
Ooh I've been waiting for lightning to strike  
I'm in the storm my arms are stretched  
I'm standing here please don't forget  
I've been waiting for lightning to strike  
My heart's a key tied to a string  
Up on a kite what will it bring  
I've been waiting for lightning

I'm waiting for lightning  
I'm waiting for lightning to strike
