

## Dangerous

## The Neighbourhood

Ridin' round in my city, same thing I used to do  
Got a new girl with me  
I could have another one if I wanted to, but no  
Might call another one

Ridin' round in my city, same thing I used to do  
Got a new girl with me  
I could have another one if I wanted to, but no  
Might call another one this afternoon, I won't  
I did it, look who I brought with me  
Ridin' round your city, vibin' out in your city  
Sold out in your city, but I think you earned this  
I feel like you're worth it  
Your blue eyes and those red lips  
Thank God you're on my guest list  
Don't talk much, I don't say shit  
And you lay down and we make it up  
Fuck what your mother say, let's run away  
We play on that gold chain  
Drivin' round in my Escalade  
Doin' 88 on PCH, let's go

We're made to love, We're made to love  
We're made to love, We're made to love  
(But) you're dangerous  
You're dangerous, you're dangerous  
For both of us  
You're dangerous

Texting and calling, while I'm with my bitch  
You be puttin' me thru some shit  
But that pussy good as shit  
Now she goin' thru my shit  
Ask me, "Who is this? Who's that?"  
Smell my dick and asked last night where you was at  
So if I lie now she'll probably find the truth later  
But if I tell the truth she'll probably wanna leave a player  
And if she leave a player, who I'm gon' fuck with  
Can't fuck with you cause you too comfortable being my side bitch  
But fuck that, I told her  
Damn that wasn't smart, damn I fucked up  
Now that arguing 'bout to start  
She like, "Who is this? Did she suck yo dick?"  
Oh this that same-wait, YG do you love this bitch?  
This the same chick from last time, I saw you creepin' wit  
You took her out to eat and shit, ooh I hate this bitch."  
God damn, I gotta put a end to this triangle relationship  
I gotta stay away from you cause your pussy too dangerous
