

Starting Point

The Nerve Agents

I'm sorry that I'm the one here now to tell you
This planet's fuse is lit, it's like a bomb
I heard once, world peace... it can't be done
I thought about it, and now I'm writing this song

PEACE BEGINS FROM WITHIN
Make peace in your mind... it's time to live!

Hate breeds hate, it will never end, just look around you
But it's not where it ends, that's where you begin
Make peace with yourself, within your world
We are not here to be depressed, we are here to live!

PEACE BEGINS FROM WITHIN
Make peace in your mind... it's time to live!

It all starts with you!!!
