

The Invincible

The Nerve Agents

Life's horrors wont sink us
Ignorant words don't phase us
If there is a chink in the armor, we hammor it out, and grow st
ronger from it
Sacred Love will find a way
The invincible
Sometimes I feel as if I won't survive
Numb and lost in this dreadful life
But then she's there, oh, she's there
She breathes life into me
We thrust our love out
Into the dark clouds
And when the sun breaks through
We've stood our gound
True love abound
Sacrad love will find a way
The invincible
