

# Respirator

The Network

Face down in bed awaiting death  
Struggling for every breath  
Hydroxychloroquine injection  
Covid-19 infection

I'm on a respirator  
I'm about to meet my maker  
I used to be an anti-mask crusader  
But now I'm on a respirator

I used to think it was conspiracy  
Now through a catheter is how I pee  
And I know now there is no deep state  
And my own family will not resuscitate

La-de-da-de-de-da  
La-de-da-de-de-da-e-a  
La-de-da-de-de-da  
La-de-da-de-de-da-e-a

I'm on a respirator  
I'm about to meet my maker  
I used to be an anti-mask crusader  
But now I'm on a respirator
