

Tarantula

The Network

Spiny hairs upon your neck
Imagination is your fear
And in the darkness where they live
It's in your mind is where they breed

Do you hear them
Did you see them
Did you feel them
Did you see them

At your feet within the dark
On the bed when you're asleep
They're out of sight, not out of mind
For in the night they drink your blood

Did you hear them
Did you see them
Did you feel them
Did you see them
Did you hear them
