

Trans Am

The Network

She is another form of energy
But with a quantum physicality
She is a science fiction episode
Coursing the veins of the open road
So when I saw her in reality
I knew that she'd be my fatality
The faded glory of an aging star
My future lover is a motor car

She's who I am
Driving me mad
When I'm with her
Trans Am

Cruising the streets of our hypocrisy
Nuclear power from the 70's
A retro bomb at the starting line
She is a beauty she's my Frankenstein
Evolving from another time headed to outer space
Scorching the pavement just a victim of the human race
White knuckles racing cause her force is so centrifugal
Can't stop myself from driving her inertia

Telling me who I am
Driving me mad
When I'm with her
Trans Am

She's the d-d-d-d-death of me (Trans Am)
She's the d-d-d-d-death of me (Trans Am)
She's the d-d-d-d-death of me (Trans Am)
She's the d-d-d-d

She's who I am
Driving me mad
When I'm with her
