

Fortunate Fool

The New Amsterdams

Take a walk on the wrong side
And put your feet on the floor
A long face for a long night
And you're really what you came here for

And how did end, say everything
A long form letter that you'll keep forever
You're upside down, gave you the run around
Shouted the words aloud
Love is a battleground
Swallow a bitter pill
Maybe the poison will
Take you on a long road to forget what you came here for

Say hello to the wrong side
Here we go again
Hang on, it's a long ride
Never seems to end

But how did end, say everything
A long form letter that you'll keep forever
You're upside down, gave you the run around
Shouting the words aloud
Love is a battleground
Swallow a bitter pill
Maybe the poison will
Take you on a long road to forget what you came here
Fortunate fool
Love got the best of you
This is just so cruel
But it's the truth
Fortunate fool
Love got the best of you
This is just so cruel
But it's the truth
