

# Jackie, Dressed in Cobras

The New Pornographers

Look, we've seen this kind of thing before  
Jackie threats with cobras at the door  
don't live your life inside a narrow filled with glances  
New York City find your chances  
yes you've had 'em  
yes you've had 'em  
yes you've had 'em

On a train devouring the land  
there's a kid going insane over her man  
insane over her man  
insane over her

Look, we've seen this kind of thing before  
four kids hanging from the reference door  
and if he hollers let him out  
cause he's gonna shout  
something in the way she moves  
just shouldn't be allowed

Left on the jungle floor  
Jackie's dressed in cobras  
givin me ideas  
what I really need now is ideas

Look, we've seen this kind of thing before  
vampires flown across the ballroom floor  
mistake his blood-lust feast for dancin  
New York City find your chances  
yes you've had 'em  
yes you've had 'em  
yes you've had 'em

On a train devouring the land  
there's a kid going insane over her man  
insane over her man  
insane over her

On a train devouring the land  
there's a kid going insane over her man  
insane over her man  
insane over her

On a train devouring the land  
there's a kid going insane over her man  
insane over her man  
insane over her
