

# Up in the Dark

The New Pornographers

It's no secret why we're here  
You can't keep it from it  
In another moonless minute it's open wide

You hide secrets from them  
You hide secrets but they're spent  
All that kept the lights on when the power went

What's love?  
What's love?  
What's love?  
What what turns up in the dark?

What's love?  
What's love?  
What's love?  
What what turns up in the dark?

What turns up in the dark?  
What turns up in the dark?

You can't see them in it  
It gets weaker, watch them go  
Wrap yourself around me in the shadow show

You hide secrets from them  
They were the weakest ones we heard  
Only when the lights were killed they sang that verse

What's love?  
What's love?  
What's love?  
What what turns up in the dark?

What's love?  
What's love?  
What's love?  
What what turns up in the dark?

What turns up in the dark?  
What turns up in the dark?

What's love?  
What's love?  
What's love?  
What what turns up in the dark?

What's love?  
What's love?  
What's love?  
What what turns up in the dark?

What turns up in the dark?  
What turns up in the dark?
