

Goldie's Parade

The New Power Generation

U stick around
Goldnigga (What you hear at our concert is the real thing)
Be your own man
Endless abyss (What you hear at our concert is the real thing)
Do you love me?
Is this just a carnival ride?
We go round and round (What you hear at...)
As we go round and round
U stick around
We got a caller on the line, caller, caller on the..., hello

The land of a New Power Generation (Who said that?)
Playin' the music 4 your mind, your body and your soul
The land of a New Power Generation
U stick around, but remember I'm the boss
Can I get some help over here

Another 30 seconds

Have you ever heard a horn so nasty?
Goldnigga
Incubated society (Clean it up, boy)
What you gonna do with your life? (This is smooth)

U stick around
(What you hear at our concert is the real thing)
And ain't shit changed in 20 years, y'all
(What... what you hear at our concert is the real thing)
2 all my fellow Goldniggaz
U stick around

(What you hear at our concert is the real thing)
Instead of leading, we are being lead
But remember, I'm the boss
Caller, caller on the..., hello
Listen 2 the funky horn, y'all
Do you love me?
Goldnigga

Playin' the music 4 your mind, your body and your soul
And ain't shit changed in 20 years, y'all
The land of a New Power Generation
We go round and round
Do you love me?

Endless abyss
Incubated society
Is this just a carnival ride?
The land of a New Power Generation
Is this just a carnival ride?
Incubated society
The land of a New Power Generation
Is this just a carnival ride?
In... in... incubated society

Goldnigga
Be your own man

U stick around, but remember I'm the boss
And I give all the orders [laughter]
