

Can't Stop Rock & Roll

The New Roses

I heard the rumors too
Bad news for me and you
They say it's time for something new
But I accept that bet

Broken hearts and one night stands
Simple men working with their hands
Young kids starting their first band
So it ain't over it ain't over

As long as there's a night
You can't stop rock & roll
Well I'm locked and loaded and I'm ready to ride
And I stay out of control
That's why I know yes I know
You can't stop rock & roll
Can't stop rock & roll

Fast cars and loud machines
Hot girls in skinny jeans
Don't say this world would be
Better off without

Good friends you never met
Cold drinks hot drops of sweat
Big speakers that will blow your head
Cause it's never too loud never too loud

As long as there's a night
You can't stop rock & roll
Well I'm locked and loaded and I'm ready to ride
And I stay out of control
You can't stop rock & roll
That's why I know yes I know
You can't stop rock & roll

When the lights go down
And you hear the sound
You feel seconds flow into eternity

Oh, as long as there's a night
You can't stop rock & roll
Well I'm locked and loaded and I'm ready to ride
And I stay out of control
You can't stop rock & roll
Well I'm locked and loaded and I'm ready to ride
And I stay out of control
That's why I know yes I know
You can't stop rock & roll

You can't stop rock & roll
