

# Playing With Fire

The New Roses

Your good advice comes much too late  
I never thought I'd turn twenty eight  
Cause I live a crazy life  
I fly higher till the heavens end  
But I must have skipped school when they taught how to land  
And my gear shift's always on drive

Cause I bring the wrecking ball when I'm having a ball  
Ain't gonna stop till the last brick falls  
The finish line is at the end of a good time  
And here comes the starting shot

I'm not playing with fire  
I'm not kidding around  
I'm not playing with fire  
I just burn the whole thing down

I've always been an all in flat out guy  
I could be better but I don't know why  
Cause what's the use of slowing down  
I see no line until it's crossed  
I keep on rolling at any cost  
And tonight I rock this town

Cause I'm just killing time until it's time  
You can't arrest me cause it ain't no crime  
My wild heart tells me what to do  
And I can hear it scream

I'm not playing with fire  
I'm not kidding around  
I'm not playing with fire  
I just burn the whole thing down

Cause I love to dance on the volcano  
I keep on living on the edge

Cause I'm not playing with fire  
I'm not kidding around

I'm not playing with fire  
I'm not kidding around  
I'm not playing with fire  
Cause I just burn the whole  
Yes I burn the whole  
Yes I burn the whole thing down
