

Endless Lovers

The Night Café

All my loves been taken from me
Endless lovers incomplete
Through it all I forget her name
All my loves been taken from me

I know you've been, going round
With all the other boys in town

All my love that I gave to her
Brokenhearted beyond repair
Through it all I forget her face
All my loves been taken from me

I know you've been, going round
With all the other boys in town

I know you've been, going round
With all the other boys in town

All loves been taken from me
Endless lovers
