

# Forget It All

The Night Café

It's plain to see  
That sometimes you forget just where you're going  
So stick with me and then forget it all  
Remember it's the feeling  
Of just being that you love

When I say it's your turn  
To be happy  
I mean every single word

Please take me  
To that place beyond the pine  
Is it sunny? Is it lovely?  
I can't wait to see the sun  
So let's go

When I say it's your turn  
To be happy  
I mean every single word

When I say it's your turn  
To be happy  
I mean every single word
