

I Know (I'm Sure)

The Night Café

Take me
For all that I am
Just don't break me
Make me a better man

Something ain't nothing
So how does it feel
I'm not going to stop this
Just know that I'm here for
You

Time
Together means nothing
But space
Apart that means something

The time that it takes
Just to call
Is all that you need
You're not alone
In the face of it all
Just know that I'm here

I believe that everything
Is working it's way out
I believe that everything
Is working it's way
I know I'm sure

Love is all that you need
When the struggle is all that you see
So take it all out on me
Just know that I'm near

Something ain't nothing
So how does it feel
I'm not going to stop this
Just know that I'm here for

I believe that everything
Is working it's way out
I believe that everything
Is working it's way
I know I'm sure

Take me for all that I am
Take me for all that I am

I believe that everything
Is working it's way out
I believe that everything
Is working it's way
I know I'm sure
