

## A Paris Point Of View

The Night Flight Orchestra

I've got a promise to keep while I'm breathing  
Your silhouette will be stuck in my mind for long  
Chateaux and concrete was something you needed  
It's never easy to keep up the pace of love

Until the day that I die I'll see it through  
Until the day that I die I'll be with you

So now all we ever fought for has won  
And I'm stuck here with a loaded gun  
Within a Paris point of view and you're gone  
It's my biggest mistake but I'm holding on  
To the demons that were here to pretend  
That we'll never be the same again  
I guess this Paris point of view is the end  
It's my biggest mistake and I'm holding on  
Mais je t'aime...

In every heartbeat our love was the reason  
Tes yeux marrons will be stuck in my mind for long  
Cafés and alleys won't swallow our secrets  
I sense you're thinking he's all wine, women and song

Until the day that I die I will subdue  
All those memories of pain from when I lost you

So now all we ever fought for has won  
And I'm stuck here with a loaded gun  
Within a Paris point of view and you're gone  
It's my biggest mistake but I'm holding on  
To the demons that were here to prevent  
That we'll never be the same again  
I guess this Paris point of view is the end  
It's my biggest mistake and I'm holding on  
Comment je t'aime...

So now all we ever fought for has won  
And I'm stuck here with a loaded gun  
Within a Paris point of view and you're gone  
It's my biggest mistake but I'm holding on  
To the demons that were here to prevent  
That we'll never be the same again  
I guess this Paris point of view is the end  
It's my biggest mistake and I'm holding on  
Mais je t'aime...
