

How Long

The Night Flight Orchestra

Just another wasted evening
In a nameless part of town
Thought I'd never stop believing
But it happens when I'm down

There are hearts in need of rescue
But I'm far beyond that point
It all started when I met you
Now I guess I'm too far gone

How long, Rhiannon
Until the morning comes?
How long, Rhiannon?
I don't know if I will ever face the light again
How long?
Bring whatever that can help me through the night

I just seek a new sensation
But you know the state I'm in
You're the rehabilitation
If you'd only let me in

How long, Rhiannon
Until the morning comes?
How long, Rhiannon?
I don't know if I will ever face the light again
How long?
Just how long before I face the light?
Bring whatever that can help me through the night

How long, Rhiannon
Until the morning comes?
How long, Rhiannon?
I don't know if I will ever face the light again
How long?
Just how long before I face the light?
Bring whatever that can help me through the night
