

If Tonight Is Our Only Chance

The Night Flight Orchestra

Whenever you hold me
The dreams you never told me
I sense them every time we touch
Your sadness and longing
The place we're never going
You know I need it just as much

If tonight if our only chance
We'll take it
If tonight if our only chance
We'll try it
If tonight is our only chance
We will make it tonight, you and I
If tonight is our only chance

The silence you're fearing
Those acts of disappearing
Still sheltered from the world outside

If tonight if our only chance
We'll take it
If tonight if our only chance
We'll try it
If tonight is our only chance
We will make it tonight, you and I
If tonight is our only chance

So let the silver in
Like darkness entering
We're still together in the place
Where dreams begin
So let your tears dissolve
Into the evening glow
Tonight's the night and where it ends
No one knows

If tonight if our only chance
We'll take it
If tonight if our only chance
We'll try it
If tonight is our only chance
We will make it tonight, you and I

If tonight if our only chance
We'll take it
If tonight if our only chance
We'll try it
If tonight is our only chance
If tonight is our only chance
