

Like The Beating Of A Heart

The Night Flight Orchestra

Night shadows creeping up on me
Going under, drown in your deceit
Watch me fall again, now to my knees

Bleeding hands from holding on too long
Can't somebody out here hear my call?
Conquered chains no longer holding up this broken wall

Like the beating of a heart
Slowly cursing through my veins
Like the beating of a heart
Solitude now is my fate
Like the beating of a heart
Drain this blood from every part
Every part of me, you'll see
Like the beating of a heart

See the fire burning up ahead
But all I feel is the heat of you instead
Won't touch, 'cause now I've had my lesson learned

Move like poison, under everything
No escape as you make your way slowly in
Cannot breathe, suck the air, and now I see you're bad for me

Like the beating of a heart
Slowly cursing through my veins
Like the beating of a heart
Solitude now is my fate
Like the beating of a heart
Drain this blood from every part
Every part of me, you'll see
Like the beating of a heart

Like the beating of a heart
Slowly cursing through my veins
Like the beating of a heart
Solitude now is my fate
Like the beating of a heart
Drain this blood from every part
Every part of me, you'll see
Like the beating of a heart
