

Stella Ain't No Dove

The Night Flight Orchestra

I see you coming baby
I feel the pain
I'm always changing
And the way you say name
As I'm watching hatred
Being taken to school now

I've lost my money
You lost your flair
I'm really sorry that I
Even seemed to care
But I think I found the spark
In this pile of ashes

Let me please introduce
Who I'm thinking of
She's just a different kind of love
It takes three, I thought you knew
Yes it's true
Let me please catch a show
What I'm preaching of
It's just a different kind of love
Trust me, Stella ain't no dove
She's a different kind of love

I guess you felt like I have
Passed the blame
The feeling's mutual baby
Ain't no shame
But now I found a way
To look beyond that
The time you made me choke
And stabbed my arm
Well that time we sobered
As we found your charm
For better or worse
You set tonight on fire

Let me please introduce
Who I'm thinking of
She's just a different kind of love
It takes three, I thought you knew
Yes it's true
Let me please catch a show
What I'm preaching of
It's just a different kind of love
Trust me, Stella ain't no dove
She's a different kind of love

When I see your glance, I release
Is it you or her that I please?
Or is it both I wonder
Heart grows fonder
I'm on my bendin' knees
Is it me who's completely lost?
Don't care who's paying the cost
Cause my life sighed in a moment of pain

What did I sign up for, is the loss?

Let me please introduce
Who I'm thinking of
She's just a different kind of love
It takes three, I thought you knew
Yes it's true
Let me please catch a show
What I'm preaching of
It's just a different kind of love
Trust me, Stella ain't no dove
She's a different kind of love
