

## Taurus

### The Night Flight Orchestra

I hear you breathing  
Gently coming my way  
Although I need it  
In the end it will go away  
The shadow of Venus  
Covers my tracks in the sun  
They will fade away  
Long before it's all said and done

Like a glowing fence, shutting out  
Feelings raw and new  
If I could, I would say it  
No one else but you

And we're torn in the rain  
What you shared is mine  
Would you feel the change,  
If you saw the signs?  
Is it hard to take  
That you're fading out  
I'll do the Taurus thing  
Waiting down the line

Spare me your feelings  
I want death to move on  
In this world we made  
We both know when it's said and done

If it's all we get, all I felt  
Yeah, equals all I knew  
No mistaking if we make it  
All I want is you

And we're torn in the rain  
What you shared is mine  
Would you feel the change,  
If you saw the signs?  
Is it hard to take  
That you're fading out  
I'll do the Taurus thing  
Waiting down the line
