

Die A Little

The Night Game

The scars will never go away
And the ghost is still hard to shake
You say you want what's left of me
Put the parts back into their place
Ooh don't need a lover
Ooh don't need another
Hell with me if can't do it on my own
I ride alone forever
Promise this is better
I promise this is better, it's better, better

What killed me yesterday
Baby it's still a part of me
I had to die a little
To learn to survive a little
And under all the pain
Baby there's nothing I would change
I had to die a little
To learn to survive a little

Ooh the valley's hot tonight
And the sweat's soaking thru the bed
You say that love would get me right
Chase the demons out of my head
Ooh don't need a lover
Ooh don't need another
Hell with me if can't do it on my own
I ride alone forever
Promise that it's better
I promise that it's better, it's better, better

What killed me yesterday
Baby it's still a part of me
I had to die a little
To learn to survive a little
And under all the pain
Baby there's nothing I would change
But I had to die a little
To learn to survive a little
Whoa
Whoa

Ooh don't need a lover
Ooh don't need another
Hell with me if I can't do it on my own
I ride alone forever
Cause I can do it better
I can do it better, better, better

What killed me yesterday
Baby it's still a part of me
I had to die a little
To learn to survive a little
And under all the pain
Baby there's nothing I would change
But I had to die a little
To learn to survive a little, yeah

Whoa
Whoa
