

Crack It Open

The Notwist

Hey you, it talks to you
Now sing a lot
You are not coming in this coming
But there's nothing we can do
And now you scream a lot

I know
That we can crack it open
I stand
But I don't sing a lot
I know
Let's do it all together

Hey you, it talks to you
Now sing a lot
You are not coming in this coming
But there's nothing we can do
And now you scream a lot

I know
That we can crack it open
I stand
But I don't sing a lot
I know
Let's do it all together

Hey you, it talks to you
Now sing a lot
You are not coming in this coming
But there's nothing we can do
And now you scream a lot

I know
That we can crack it open
I stand
But I don't sing a lot
I know
Let's do it all together
