

# Nothing Like You

The Notwist

Dance of the bottles  
We drank and we knew  
That we were too far  
You know that we had to stop now  
We never never  
Never could

There's nothing like you  
You're the one  
That rocks me to sleep  
I knew from the first time I saw you  
I'd never never  
Forget you

It's the one night stand  
That lasts forever

Nothing like you

You say we're all falling  
So we can arrive anywhere  
If you'll hold me  
We'll fall together  
If you'll let me  
We'll fall apart

I guess I'm in love  
'Cause I'm so nervous  
All the time  
And when I close my eyes  
I see you  
I see you  
I see you
