

# This Island Earth

The Nylons

Calling all dreamers and optimistic fools  
Don't let go of your dream make it now, make it all come true  
If you believe in a brighter day, I know we can find our way

To this island, in a starry ocean  
Poetry in motion, this island earth  
Spinnin' like a dancer, gravity is the answer  
Rendezvous in the blue, this island earth

We don't know what's in store today  
We can spread our wings and we can soar away  
Or we can go like the dinosaurs, they say  
The choice is ours to make

All this seems like yesterday  
We can wake up one day and be history  
Or stick around to unravel the mystery  
Of how we came to be

On this island, in a starry ocean  
Poetry in motion, this island earth  
A beautiful oasis for all the human races  
The only home that we know, this island earth

Well I know we can touch the stars one day  
And kick up the dust on Mars one day  
Or trip the light of the Milky Way  
We've got to find our way

If you're lookin' for a miracle open your eyes  
There was one this morning just about sunrise  
Dawn came breakin' like a wave on the sea  
And it's there for you and me

Calling all dreamers and optimistic fools  
Don't let go of your dream make it now, make it all come true  
If you believe in a brighter day, I know we can find our way

To this island, in a starry ocean  
She's poetry in motion, this island earth  
Spinnin' like a dancer, gravity is the answer  
Rendezvous in the blue, this island earth

Whoa, this island earth  
Got to find our way  
Whoa, this island earth  
Whoa, this island earth
